

"Cannibal Pots" is a successful familyride for parks. It can be themed in 6 different versions and is composed by a big rotating plate in which 3 smaller plates are incorporated so that three rotations are possible simultaneously: one of the big plate, one of the smaller plates and one of the pots. The latter is made by the passenger himself by means of a steering wheel placed in the pot. Approved by TÜV Munich.

Road model	not available
Park model	available
Gondolas	9x5 seats, 45 seats total
Front	12 mt (39 ft.)
Front with roof	14.5 mt (48 ft.)
Depth	12 mt (39 ft.)
Depth with roof	14.5 mt (48 ft.)
Height without roof	2 mt (7 ft.)
Height with roof	6 mt (20 ft.)
